Information for Authors

Scientific papers in the different topics and special sessions are welcome, the scientific committee will consider oral and poster presentations, Springer has developed a very innovative publishing approach which entails making your work available in as many parallel formats as possible (printed copy, eBook, epub for iPad, Kindle edition etc.).

This is also reflected in the preparation of the manuscript and means that all files you submit will be converted and re-formatted according to the Springer branded style. For this reason, it is no longer necessary for you to spend valuable time putting the final touches to the manuscript.

The Following Applies To The IFMBE Proceedings:

Preparing your proceedings paper

English is the official language for all submitted papers. For all submission languages the abstract must be in English. Full paper in English is mandatory for considering publication in the IFMBE Proceedings Series. All papers Submissions should contain original work, not published or under consideration for publication elsewhere. The final paper should follow the IFMBE proceedings format with 5-6 pages. (Recommended)

After your paper is accepted, upload your final paper in PDF file format to the system. The source file usually contains the manuscript file in MS Word format and high resolution figures. In the following links, you can download the template containing further instructions and details for the paper formatting:
